

This Was Hockey

Edmonton And Saskatoon Played a Tie Game With the Best of Feeling. Edmonton Won the Play-off

Saskatchewan against Alberta was the battle cry last night at the Thistle rink, Edmonton, and the believers in both provinces and pretty hockey had an entertainment that was worth travelling many a mile to see. There was an entire absence of anything approaching malice, and though probably we have seen faster games on local ice this season we doubt if a competition with the absolute good fellowship, good hockey, and good sportsmanship shown last night has been presented to the public this season. The public has got tired of the eternal lemon which has been handed to them. Last night's game was a refreshing interlude. Give us more of these, oh Edmonton, and hockey will still be a game that draws enthusiastic crowds in the West. The Saskatoon team are quite a bit lighter on the locals and as their home ice is considerably smaller they are at a decided disadvantage, but they speak with a great deal of confidence of their play to-night and they have many admirers who will watch with interest their performance.

Three times they tied the locals, 3-5, 7-7, 7-10, and at the close of the 10-10, where they were going much stronger than at the opening and they seemed to have the knack of evading the checks of the Edmonton heavy defence.

Only four players were penalized, Hanford, Boulton, and Crowley, and Saunders, of the Cairns specials. These penalties were all in the last half when the play was the most eagerly contested. Surely the fact that little Boulton, the lightest, cleanest and best player in the West, was among the penalty receivers, is an indication of how scrupulously clean the game was. Those who miss to-night's game have only got themselves to blame.

The teams and officials were: Edmonton—H. Hanford—goal. Campbell. Bette.

Poultry Exhibition Now on

The annual exhibition of the Alberta Poultry and Pet Stock Association opened in the Mechanics' Hall, Third street, Edmonton, this morning, and will be open every afternoon and evening until Friday evening. The association has secured the services of A. W. Foley, poultry expert with the Provincial Department of Agriculture, for the purpose of giving a series of lectures during the exhibition on poultry raising and poultry fattening.

The directors of the association are: Hon. President, Geo. Harcourt, Deputy Minister of Agriculture; president, Jas. A. Stovel, Edmonton; secretary-treasurer, L. Knowles, Edmonton; assistant secretary, T. Taylor, Edmonton; superintendent of exhibition, W. A. Greenfield, Edmonton.

OLD COUNTRY SOWN UNDER.

London, March 2.—Scotland and parts of England and Wales have experienced two days of most wintry weather in many years. There have been heavy snow falls and blizzards and railway and telegraph communication have been interrupted in many places.

In parts of Scotland the snow drifts are deep and often feet deep. It is said that the railways will be blocked for a considerable length of time because equipment for clearing the tracks of such obstruction is lacking. A passenger train was stalled between Glasgow and Port William last night and relief trains were unable to reach it for twenty-seven hours. Meanwhile the passengers were with out food.

Chief of Police Shoots Assassin

Chicago, March 2.—Chief of Police Shippy was stabbed, and his son Harry shot in the right lung, and the family coachman, James Foley, was shot and slightly wounded by a midnight man. The assassin is believed to be an anarchist. He was shot and instantly killed by the Chief. A man called at the house, presented a letter to the chief and while the latter was reading it, drew a revolver and fired, the bullet striking the chief's son. The coachman came to his aid and was also wounded. The chief succeeded in disarming the man of his revolver, but the latter drew a knife and stabbed the chief five times before Shippy could draw a revolver and kill his assailant.

THE WEATHER.

Winipeg, March 3. Max. Min. temp. temp. Edmonton ... 10 - 8 clear Calgary ... 12 - 10 fair Prince Albert ... 14 - 4 cloudy Swift Current ... 18 - 6 cloudy Regina ... 16 - 2 cloudy Minneapolis ... 20 - 6 snow Winipeg ... 18 - 10 snow Port Arthur ... 28 - 8 clear Bulletin: Light snow falls have occurred in nearly all districts of the prairie province. It has been much heavier in northern Alberta and parts of Saskatchewan where temperatures have been several degrees below zero. In other parts the weather has been moderately cold. Forecast: Continued cold weather. Light snow falls.

Correspondence

PROFESSIONALISM IS SPORT.

To the Editor of the Chronicle:

Dear Sir,—I notice that negotiations are now on the way for the formation of a professional baseball league to include teams from Edmonton, Strathcona and Calgary.

In view of the past season's work in professional hockey, I would not be in favor of supporting a professional ball team at all, but I think a strictly amateur league would suit the taste of the general public far better, would not cost so much to keep up, and would eliminate a good deal of the present high strung feeling in regard to sport.

Professionalism may be all right in large cities, such as New York or Chicago, but at present we cannot afford to pay the salaries of these experts in the game they expect, and even if we get them, we are running all kinds of chances, as to whether they will not squander or not be an example say a pitcher or catcher gets \$500.00 for his season's work; and is promised a job in his particular line of business besides; as a rule he is not much use to his employer, and has no particular interest in the town he is playing for, except what he gets out of it for the season, and an offer of say \$100.00 to "throw" some particular game, to oblige some gambling friend, might look good to him. A strictly amateur baseball or lacrosse league, with a residential clause of not less than 12 months, will give more satisfaction than any of your so-called professionals, would not cost so much to maintain, and would draw just as large and perhaps a larger "gate." We had just as much entertainment and more satisfaction out of the old-time games of hockey, when we knew every man who was playing on the team. We had our little scraps then, it is true, and it is impossible to cut out a certain amount of roughness in such games as hockey or lacrosse, but in those days they were not so particular as to the selection of referees; they were generally chosen at the eleventh hour. We have any amount of good raw material, for any game, without importing from the States or Eastern Canada. The very best game we have here this winter as regards good combination work, was played between school teams and played by boys we all knew, and had an interest in.

A word as to the much talked of blood between the rival cities of Strathcona and Edmonton, which I suppose will continue to exist until such time as the rival cities become one. To hear some people talk it would seem that no such feeling was known anywhere else. These people have evidently never seen Port Arthur and Fort William, or New Westminster and Vancouver cross sticks. In conclusion, I hope to see our Alberta boys get together and form a strictly amateur baseball or lacrosse league or both, and I prophesy if they do they will get the "gate" every time, and the citizens' "gate" called upon from time to time to donate towards paying arrears of salaries of "whirlwind" players from Kalamazoo, who have not the playing qualities of the boys of sunny Alberta.

U. WILSON.

NO SWEARING ON TRAINS.

Calgary, March 2.—An order has been issued by D. McNeill, vice president of the C.P.R., calling the attention of trainmen to instructions regarding swearing and the use of obscene language on trains. Employees of the C.P.R. are not only instructed to refrain from swearing or using obscene language, but have been ordered to see that language of an offensive or annoying character is not used by passengers.

Making Twin Cities Known

Tomorrow afternoon a committee of the Edmonton Exhibition Association will send to the Strathcona Board of Trade to make final arrangements for the sending of a joint exhibit from Edmonton and Strathcona to the Dominion fair at Calgary in July. They will also confer as to the holding of a joint exhibition by the two cities in Edmonton in June.

The directors of the Dominion fair at Calgary have set aside a day during the progress of the fair which will be known as the Twin Cities Day. This will be for the purpose of advertising Edmonton and Strathcona. It is now probable that the two cities will have a separate building at the fair.

AVAILANCHE DEALS DESTRUCTION.

Berne, Switzerland, March 2.—An avalanche descended today near the village of Goppenstein. The enormous atmospheric pressure, which accompanied it, demolished a hotel at the mouth of the Loetschthal tunnel works, killing thirteen persons and injuring fifteen others. The occupants of the hotel, numbering thirty, were surprised while seated at the table by sinister rumblings. Almost immediately the children rushed into the dining room and screamed: "An avalanche, an avalanche!" There was a rush to escape, but the building which was of a temporary nature, collapsed without warning. Both of the children were killed, along with many of those they sought to save. Among the others killed was an American engineer named Hervert, who was installing machinery used in the tunneling. The hotel had been erected by the tunnel contractors for the convenience of the engineers and others engaged in construction work. There were no tourists. The village post office and police station also were seriously damaged by the air wave and were keeled over to an angle of forty-five degrees, making their occupancy impossible. The tunnel works were not damaged.

HUGE FIRE IN NEW YORK.

New York, March 2.—Two fires that brought out all the fire apparatus in the upper section of the city and raged in a lively fashion from midnight until dawn today, burned down the car barns of the New York City Railway company in Second avenue in Harlem, and the paint factory of George W. Grove & Co., only a few blocks distant. There were 740 tons of summer surface cars burned in the destruction of the barns. The loss to the company is \$2,500,000. The loss on the paint factory is given as \$125,000. It was the railway company's second serious fire within a year, the former blaze having destroyed in Madison avenue car barns.

NINE-HOUR DAY FOR AMERICAN RAILROADS.

Washington, D. C., March 2.—American railways have made arrangements to comply with the provisions of the "nine-hour law." The operation of the law will mean the employment by railroad companies of several thousand additional operators, and the closing of a large number of small stations on the fourth of March. The discontinuation of railway service, at many points, it is realized will induce, at least temporary inconvenience to the travelling and shipping public, but in order to reduce operating expenses which now seems necessary, the operating officials believe this is the only way they can possibly meet the situation.

Charge Against Edmonton Man

S. G. Halliday, who was arrested last week charged with embezzlement, was brought before Magistrate Baiter, in Edmonton, yesterday and the case was given an adjournment. Halliday has been for some time conducting a news stand on Jasper avenue. He was also agent for the Alberta Canadian Insurance Co., vesting privileges on commission. The charge against him is that of appropriating \$392 of the company's funds to his own use. He is being defended by H. H. Robertson, and will be given a hearing to-day. Mr. Parles is conducting the prosecution.

A BIG PLAY COMING.

It is announced that Sidney W. Morris has engaged the Irving Beers Company to play "The Noble Outcast" at the Strathcona Opera House on Thursday next under a heavy cash guarantee. This play is the one which made John A. Fraser famous and has been continuously running both in England and America for over 20 years. The cast putting on the play is an exceptionally strong one, containing three professionals, who made a great hit in Edmonton last Saturday. The grotesque character of Jerry the tramp, as played by Irving Beers brings forth continuous laughter, whilst in the third act Miss Cecilia Hope, as the wronged heroine, moves the audience to tears by her pathetic appeals. The fact that the company has been booked to play in four Alberta cities since they performed in Edmonton last Saturday is sufficient to assure a full house in Strathcona on Thursday next. The cast is as follows: Jerry Weston, Irving Beers, James Blackburn, Sidney W. Morris, Col. Lee, Mr. L. A. Andrews, Jack Worthington, Mr. H. Shewell, Billy Jenkins, Police Officer.

Mrs. Lee, Miss H. Swarbrick, Sadie, Miss D. Newton, and Miss Cecilia Hope.

WINNIPEG WANTS POWER PLANT.

Winipeg, Man., March 2.—The city council meeting to-night proved an unusually arduous affair, the most striking feature being the presentation by the delegates of a recently formed power league, of a monastic petition, containing over ten thousand signatures, in favor of the immediate construction of the civic power plant. The document is estimated to be a hundred yards long. A bitter debate developed over the publication of the letter of Coates & Sons, a financial firm of London to Mayor Ashdown, and Ald. Eggeston, accused of surreptitiously obtaining a copy was endorsed by a majority vote, which called on the mayor to lay on the table of the board of control the entire correspondence.

H. R. Pettkan was appointed city tax collector in succession to G. H. Haskins, retired. The other candidate, R. D. Waugh, who has been endorsed by the board of control, retiring from the contest.

BRITISH PREMIER SERIOUSLY

London, March 2.—Sir Henry Campbell-Bannerman, the prime minister, has suffered a relapse as a result of seeing people and transacting business on Saturday. The attending physicians consider the weakness of the heart is the more serious part of the prime minister's illness. He will go to the continent as soon as he is strong enough, and it is unlikely that he will reappear in parliament this session. All exertion and excitement are forbidden.

Peary Will Try Again

Toronto, March 2.—Though disappointed with the failure of his last voyage in search of the north pole, when he reached the farthest north point yet touched by man, Commander Peary resolutely declared to a Massey Hall audience last night that he would succeed. Peary is only a few months back from the latest effort in the quest which he had made the main objective of his life.

Mr. Peary tried to picture what the north pole would be like if it was ever reached by man. He naturally declared there would be no pole that one might run against in the dark; there would be nothing tangible, but there would be scientific conditions of note. For example, the wind, no matter from what direction it came, would be a north wind, and all the fixed stars would move across the horizon in a perfectly horizontal direction. In concluding, Mr. Peary declared the expenditure of treasure and effort in the search for the pole, on the ground of the national and personal prestige it would bring to the successful explorer, and the satisfaction there would be in overcoming the greatest natural obstacles known to exist in the world. He declared his intention of leaving again for the north during the present year.

The lecture was under the patronage of the Ontario Land Surveyors, and the chair was occupied by Prof. A. F. Coleman.

ODELLOWS, ATTENTION.

A special meeting of Strathcona Lodge No. 9, I.O.O.F., will be held to-morrow, (Wednesday), evening at 8 o'clock. By order of the Grand, V. T. Richards, Secretary.

THE FORTHCOMING ATTRACTION

Since Mr. Irving Beers & Co. put on "The Noble Outcast" in Edmonton last Saturday, Mr. Sidney W. Morris, the manager of the company, has received applications from four towns in Alberta to play this great drama. Mr. Morris is bringing the company to Strathcona under a heavy money guarantee, and it is hoped that Strathcona people will not fail to patronize a good show when it is provided.

CAN'T RAISE THE FUNDS.

St. Petersburg, Mar. 1.—The project for the re-building of the Russian fleet has received a set-back as a result of the attitude taken by the ministry of finance which sees no possibility under the present circumstances of the country raising the funds needed for the construction of a great and powerful navy. The naval estimates submitted amounted to \$100,000,000 for the ten years' construction. Minister of Finance Kokovonoff to-day, said that neither could this extended programme be considered now. The minister of finance believes that the sums assigned annually for new construction will continue at about \$15,000,000 for several years.

DUNSMUIR WANTS A HOLIDAY.

Victoria, B. C., March 2.—Hon. J. Dunsmuir to-day gave a categorical denial to rumors going to the effect that he intended to be asked to be relieved from the duties of Lieutenant Governor of British Columbia. He states that within the next two days he will ask for four months' leave when he expects to go to England, to take possession of the new steam yacht, Dolara, which is being built for him there. He will then go on a yachting tour to the Mediterranean before returning here in August.

CURRENT COMMENT

That the taxpayers of the country should be mulcted of \$12,000 per day to gratify the desire of the Opposition to manufacture campaign statistics in Parliament, to have it printed in Hansard and distributed through the mails free, is, perhaps enough, but it is by no means the most serious charge the people of the country have against the followers of Borden. Their greater crime is while robbing the taxpayer in this manner they also prevent the proper discharge of his business.

What magnificent impudence! This was procured from the credit bureau of one Howes, editor of the Edmonton Bulletin. His story is of a popular description. It is the notoriety which allows a cabinet minister to forget his own employee's designation.

PRaise FOR THE OPPOSITION.

(Saturday News).

The third session of the first legislature of Alberta has reached its final stages. It has been a notable one in many ways. It was the first to be held in a building, owned and erected by the province for the particular purpose to which it was devoted, and the result has been to give the proceedings a dignity, which they in other years lacked.

Another thing which even the most casual visitor must have noticed was the greater measure of ease and self-confidence with which the members discharged their duties. In some it was more apparent than in others, and in none more so, than in the Opposition contingent. The Saturday News has had occasion frequently to criticize the stand taken by Messrs. Robertson and Hiebert, but this much is certain, that during the past few weeks they have risen to their responsibilities to a much greater extent than previously, and by their activity have made the sessions of the House more what they should be under British constitutional conditions. Incidentally the change has been a very good thing for the government and its supporters in putting them more on their mettle.

GRAFT NOT UNKNOWN.

Medicine Hat Times: Up to the present the Alberta government, has kept pretty free from charges of graft. But it looks as if graft was not such an unknown word after all. In answer to a question of the Opposition it was stated that in two years and four months the government had spent \$58,396.85 in advertising and printing, and of this big sum "no less" than \$46,839.08 went to the "Edmonton Bulletin," only a paltry \$11,557.56 being spent among the dozens of other papers in the province.

If this isn't the worst kind of graft, the word has lost its meaning. In the last year and two months of that period the Times got the immense sum of \$56. And the government wouldn't even spend money to advertise the poultry meetings of recent date.

HER SKATING TEACHER.

If now I seem to be in pain
 And limp upon my way
 From caustic comments please refrain
 Hear what I have to say.
 I was not worried in a fight,
 I volunteered the other night
 To teach Marie to skate.

If you should question me to-day

Why now I walk on crutches,
 In truth I'd be compelled to say
 I stopped her without crutches.
 I was the cushion ever near
 On which she often sat;
 I gave a portion of my ear
 To teach Marie to skate.

Events piled up so thick and fast,
 I scarce recall them all.
 I only knew she was the last
 To land in every fall.
 And once, I can remember now,
 She landed on my pate;
 I took that gash upon my brow
 To teach Marie to skate.

In my good ear are ringing still
 Her shrieks of girlish glee;
 She laughed at evident good will
 Each time she left on me.
 From time to time she gave a scream
 Of joy, I heroly state,
 That made me curse my 'vo to teach
 Marie the way to skate.

An ankle sprained, a kneecap loose,
 An ear that looks like tin;
 A nose that would delight a mouse,
 A bone bruise on my shin;
 An eyebrow gone, an optic blue—
 All these, I now relate,
 Are tortures that I'm going through.

CAR JUMPED THE TRACK.

(Special to The Chronicle).

Montreal, March 3.—Twenty-eight persons were injured in an accident on the Sidney and Glace Bay Electric line this morning, when a car jumped the track. One man had his skull fractured.

QUEBEC LEGISLATURE OPENED.

(Special to The Chronicle).

Quebec, March 3.—The provincial legislature opened yesterday. In the speech from the throne, the increase in crime was attributed to the character of the immigration now being received. It was proposed to offset this by giving homes each year to the best schools in the province and to schoolmasters and mistresses of over ten years' standing.

It is announced that the annexation of Ungava is expected shortly.

Remember that when the Stomach, liver, heart, or Kidney is weak, or Indigestion must always follow. But, strengthen these same weak inside organs with Dr. Sheep's Restorative, and then see how quickly health will again return. Weak Heart and Kidney nerves can also be strengthened with the Restorative, where Heart pains, palpitation, or Kidney weakness is found. Don't drug the Stomach, nor stimulate the Heart of Kidneys. That is wrong. Go to the cause of these ailments. Strengthen their weak inside nerves with Dr. Sheep's Restorative and get well. A simple, single test will surely tell you by all dealers.

LANDS A GOOD JOB

Winnipeg, March 2.—N. J. Johnson, of Heat and Johnstone, Portage la Prairie, has been appointed chief provincial license inspector at a salary of \$2,500 and will remove to Winnipeg. He will have charge of the enforcement of the drastic license law passed at the session just concluded.

76 KILLED IN EXPLOSION

Montreay, Mexico, March 2.—A despatch from Musquiz to the News says:

"Details of the explosion in the Larosita mine near San Juan De Sabinas received here indicate that it was more disastrous than at first believed, 76 men being killed. The explosion occurred just as preparations were being made to change shifts in what is known as shaft No. 3 and in which most of the laborers were Japanese. Fire damp is believed to have been the cause."

\$100.00 paid by Dr. Shoop for any recent case of Grippe or acute Colds that a 25 cent box of Preventics will not break. How is this for an offer? The Doctor's supreme confidence in these Little Candy Cold Cure Tablets—Preventics—is certainly complete. It's a \$100. against 25 cents—pretty big odds. And Preventics, remember, contain no quinine, no laxative, nothing harsh nor sickening. Pneumonia would never appear if early colds were always broken. Safe and sure for feverish children. 48 Preventics per box. Sold by all dealers.

Richards, Dobson, and Forsythe.

Tickling or dry coughs will quickly loosen when using Dr. Shoop's Cough Cure. And it is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else, even for very young babies. The wholesome green leaves and tender stems of a lung healing, mountainous shrub give the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sensitive bronchial membranes. No opium, no chloroform, nothing harmful to injure or suppress. Demand Dr. Shoop's. Take no other. Sold by all dealers.
